Air Conditioning

Haier Air conditioning
Unit 2, 7 Willowfield Cr. Springfield
Park, Durban. 08602 HAIER

Haier hereby offers a five year warranty on all its air conditioning equipment.

Conditions and Limitations

1. Five year warranty on all parts.
2. Any labour, travelling costs of transportation required to effect the replacement of components shall be borne either by the client or user of the air conditioning equipment.
3. Provided that the air conditioning equipment is serviced twice a year in the instance of an installation being within two kilometres of the seashore and in Highly corrosive industrial Environments and in areas that are greater than two kilometres equipment needs to be serviced once a year, the warranty will remain in effect.
4. Provided that the Electrical supply in the area remains within a 10% voltage fluctuation for twenty four hours a day, the warranty remains in effect.
5. Provided that the Haier equipment has been installed and serviced by a certified technician then the warranty remains in effect.
6. Provided that all monetary obligations from both parties have been met then this warranty remains in effect
7. Please note if servicing does not take place as in Clause 3 then this warranty becomes null and void.

Owners Responsibility

1. To operate the air conditioning equipment in accordance with Haier's instructions and to perform routine maintenance.
2. Regular cleaning of the air filters in the indoor unit.

What is not covered?

1. Repairs required correcting failures or malfunctions that are not covered by manufacturing defects, resulting from fire, water, storms, earthquakes, theft, riot, misuse, abuse or the improper selection, installation or application of the equipment.

TWO Year Corrosive Warranty

1. Haier's air conditioning equipment carries an additional warranty that covers the equipment against breakdown due to corrosion for a period of two years. Provided that the air conditioning equipment is serviced twice a year as in Clause 3, the warranty will remain in effect.
